

Australia's **No:1** Award Winning Ducted Vacuum

BUY Direct from the FACTORY

Heavy Duty Motor

Designed for a lifetime of trouble-free operation. Easily accessible if service is ever required.

The Left Intake Position

Designed to provide the cyclonic air intake flow same direction as the motor's fan blade spinning. NO Motor Strain, extends motor's life. For Right intake we modify to suit.

All-Steel and Aluminium Construction

The Unique Aluminium Motor Shroud designed for 360 degree motor cooling, to provide longer motor's life.

Filtered Cyclonic Action

The best method of dirt separation in the industry

Large Capacity Dirt Receptacle

Only needs to be emptied few times a year, no messy bags to change or filters to wash.

Easy Wall Mounting

Power unit mounts on any wall in garage or storage area.

Outside Venting Not Required

The **STAR-VAC** exclusive filtering system, the best filter in the industry! Permanent and never needs cleaning. Traps even the finest dust and dirt particles. The **STAR-VAC** does not require outside venting, unless desired.

Wide Selection of Power Units

STAR-VAC build and modify the power units to Custom Design to suit any requirements. **STAR-VAC** the only Vacuum System that can satisfy any requests.
