Mobile Lighting Business

This is a mobile lighting business supplying and installing a large, comprehensive range of fluorescent and LED tubes and other industrial-grade lamps.

We service only commercial premises South Island-wide excluding Southland. Our services are extremely well received, and even more so now due to Health and Safety compliance requirements.

- The new operator will need to have SALES SKILLS as this is how we currently generate new sales
- No electrical qualifications required, just a desire to succeed and a good level of fitness, as much ladder work is required
- Sale of business includes huge client list, ladders, tools, training, mentoring and starting stock
- Reason for selling is â pendingâ retirement and the desire for some lucky individual to continue this wonderful business in the future

There is also the opportunity for a computer-literate operator to vastly expand the business by developing a website (and thereby generating online sales) and by providing a residential lamp replacement service to those in our community who require such a service.

PLEASE NOTE: The double cab ute as illustrated is NOT included in the sale.

For all enquiries, please contact Pete Blackwood on 0272742366 or pete.sunsouth@gmail.com

62.50% Trade : NZ\$30,000 (Cash) | NZ\$50,000 (Trade)

\$80,000 + GST (if registered)
