30m² of flexible
living space

Transform A Home Studio

The Transform A Home Studio is the most compact model, at 30m² including balcony, and less than 3.5 tonnes. This space can truly transform to any requirement you need, from home office to overnight cabin.

With large windows, floor-to-ceiling sliding doors, large undercover balcony and 2.6m high ceilings we've created a not-so-tiny home. Double glazed windows retain the warmth and cool air internally, whilst keeping any outside noise at bay.

Including built-in wardrobes and generous storage solutions in every room, plus full-size shower and toilet combine to make a practical, functional, and pleasant place to start and end your day.

The Studio is towable, registrable, and expandable:

Towing: Transform A Homes allow your home to move with you as your needs change. Our towable homes also provide easy relocation enabling investors to follow the highest rental yields.

Registering: This means no Council approval is required to set up your home, as long as it's residing in an area that permits caravans. Just register and you can have a home that moves wherever life takes you.

20% Trade : **NZ\$68,000 (Cash) | NZ\$17,000 (Trade)**

\$85,000
