Comfortable Container Home

If you are looking for an affordable first home for a single, a couple or a second income then you must view this. Built by ourselves with the help of tradesmen this home is based around a 40ft container with an integrated bolt on bedroom, deck, and flyover roof. Rainwater fills the 5,000-liter water tank with us only needing to manually top up twice in 6 years.

The home has everything for self-contained living including kitchen, dining, lounge, fireplace, toilet, bathroom/shower, queen sized bedroom, laundry and outside roofed deck.

Features:

- 3m of kitchen bench.
- 1200mm x 900mm shower with shower dome.
- Water-less composting toilet separate from the bathroom. This can easily be converted to a conventional toilet should you desire.
- Gas hot water.
- Gas hobs and oven.
- 7kw Wagner Sparky wood burner with stove top.
- Carpet in Bedroom and lounge.
- Character wood floor in kitchen.

20% Trade : **NZ\$108,000 (Cash) | NZ\$27,000 (Trade)**
