Coffee News Dunedin & Queenstown Franchise

I bought these two editions for 16K cash and have spent lots of money, labour and time over the years to get this established here in Dunedin. Queenstown is as of yet undeveloped.

I have opened another business and I simply do not have the time. It is with great reluctance I must let this go to free up my time. Please get in touch to discuss. This business MUST GO NOW.

The following is a link to our outlet map where we have about 120 restaurants and cafes etc showcasing the Dunedin Coffee News. As you can see all the hard work is already done.

Hit the ground running this business is primed to go and well established in the public eye. I already have few clients onboard.

There is a \$1K transfer fee where you must first be approved by HQ up in Auckland and then have the rights transferred to you. This is per region. I also own the Queenstown branch, however, it is yet undeveloped. Just finished paying it off.

She's all yours. Take good care of her. Any questions just ask.

Sincerely, and wishing you the very best in your new venture.
